Subject: Local Waste Services

Dear Franklin:

Jackson Township and Grove City have partnered with Local Waste Services since 2004 when Jackson Township first franchised its trash collection to Local Waste Services.

Since that time, we have had 3 renewal contracts through a local government consortium organized by SWACO. In each of those renewals, Local Waste Services was selected as the lowest and best bidder; our current contract runs through December 2021. Local Waste Services provides our residents with full-service weekly pickup of trash, recycling and yard waste at the lowest rate in Franklin County. Senior citizens over 62 years of age get another 10% off their service charges.

In all those years, we have consistently received many compliments for excellent service and only a handful of minor complaints. Local Waste handles all billing directly with residents on a quarterly basis and continues to pick-up trash even when residents fail to pay their bills. In those cases, we quarterly assess the delinquencies to the County Auditor.

As you consider a waste hauler, I highly recommend Local Waste Services for your community and would invite you to contact SWACO for information about the process of our consortium contracts.

Sincerely,

Michael Lilly
