Fourth Notification Water Department Update

February 19, 2021

FOR IMMEDIATE RELEASE TO RESIDENTS AND BUSINESS IN ASHVILLE

FOR MORE INFORMATION

Contact Jim Welsh or Franklin Christman

On February 17, 2021 at about 10:00 am a water break was identified on West Main Street between Center Alley and Long Street. At about 1:00 pm a second leak was identified on West Main Street just east of Cromley Street. The first and second leak have been repaired. Our water towers have been restored to 17 feet. We have found an additional two leaks, one on Madison Avenue near Center Alley and another leak at Long and Station Street. The repairs at Long and Station have required the turning-off of valves to allow repairs to be made, see below map. That has impacted a specific section of the Village of Ashville. On page two is a map of areas current without water. They need to follow the below "Boil Water Alert".

"Boil Water Alert"

Therefore, with both the loss of water and the resulting decrease in water pressure we are issuing a "boil water alert". We will also need to recover the water that we have lost. We are instructing you as residents to boil all tap water at a rolling boil for at least two minutes prior to consumption. The "boil water alert" remains in effect for 48 hours after repairs or until we can confirm no contamination is possible and issue an all-clear. That would be 48 hours after 4:30 pm on February 19th when the repair was completed. This would end at 4:30 pm on Sunday, February 21st.

If water has been open to air a water quality test will be performed and if any problems are detected the alert will be extended another 24 hours and you will be notified. As an alternative to boiling water, people may use bottled water.

Area that lost water supply.

"It is a place people will want to live, and businesses will want to locate."

February 19, 2021

The repair outage on February 19, 2021 includes all locations on Long Street south of Station Street and north of Main Street.

The repair outage on February 19, 2021 includes all locations on Main from the Norfolk Railroad Crossing to Walnut Street. This include all of Bortz and Wright Street.

If there are any changes, you will be notified.

For more information, residents may contact their Water Department at (740) 983-6367 or (614)214-9223 or (740)207-1842. If there are any changes you will be notified in person or by our website, radio, TV, and Newspaper.

Sincerely,

James Welsh

Jim Welsh, Chief of Water Operations

cc: Charles Wise, Mayor
Franklin Christman, Village Adm.

Repairs have been completed at Station and Long Street (St. Rt. 316) Ashville.

We appreciate everyones patience during this water event.
