Required Posting

Effective Oct. 13, 2004, Section 4123.54 of the Ohio Revised Code requires notice of rebuttable presumption. Rebuttable presumption means an employee may dispute or prove untrue the presumption (or belief) that alcohol or a controlled substance not prescribed by the employee's physician is the proximate cause (main reason) of the work-related injury.

The burden of proof is on the employee to prove the presence of alcohol or a controlled substance was not the proximate cause of the work-related injury. An employee who tests positive or refuses to submit to chemical testing may be disqualified for compensation and benefits under the Workers' Compensation Act.

DRUG-FREE SAFETY PROGRAM

It is the intention of the Jurgensen Companies to provide, promote, maintain and mandate a Drug-Free Workplace for the safety and wellbeing of each of our employees and to comply with the 1988 Drug-Free Workplace Act. Our company program and testing does not supersede and is not associated with any other requirements or restrictions by any person or entity other than as specified in this policy. Our program will include pre-placement, annual, random, post-accident/incident, post-occupational injury, reasonable suspicion and breath alcohol testing. Employees sustaining a work related injury or illness or involved in an accident/incident resulting in any property damage (Company property or otherwise) shall be required to submit immediately for testing. Refusal to submit for testing, as scheduled or arranged, will be cause for immediate termination. Any employee identified or associated with the manufacture, production, sale, purchase, transport or distribution of illegal drugs will be terminated immediately, without the benefit of a suspension.

All tests will be arranged by authorized company officials and do not require advance notification. All test results, and records of such testing, will be kept locked in confidential files and separate from personnel files. Testing will be performed under strict drug testing protocol, with a forensic chain of custody, ensuring the integrity of the sample, and may be examined by a Substance Abuse and Mental Health Administration (SAMSHA) certified laboratory. Test results, which are identified as dilute, will be just cause for further testing without advance notice. Our contracted laboratories check for and notify us when any product, either over-the-counter or prescribed is identified, which may be used to conceal a drug or dilute a urine specimen. Such findings may include a medical professional witnessing the voiding of an unannounced retest.

Through the continued training of management, supervisors and employees by a variety of information resources, our goal is to provide current data, and material that promotes a workplace free of drugs, and educates our employees. We provide information for counseling and rehabilitation services that are located in our area. These services are provided in a confidential manner. Testing, reporting or rehabilitation which may be required of an employee by another group or agency, such as the Department of Transportation, labor organizations, or licensing boards, does not alter or invalidate our company policy, but is recognized to be in addition to our policy.

Our company will not knowingly hire any applicant who fails a pre-employment drug test. Employees who fail, tamper with, or attempt to tamper with any of the company scheduled or arranged drug or alcohol testing, are subject to disciplinary action, up to and including immediate termination. Alcohol concentrations equal to or greater than 0.08 for non-DOT employees and equal to or greater than 0.04 for DOT employees are considered positive and subject to disciplinary action outlined herein. Our employees, for a first violation, excluding pre-employment, generally, at the company's discretion, receive a thirty (30) day suspension without pay. An employee, who has been suspended for a first violation, will not be eligible to be retested until after the thirtieth (30th) day of said suspension, and cannot return to work until he/she has obtained a retest at a SAMSHA certified laboratory and submitted those results to the Company within fourteen (14) days. Fourteen (14) days shall be defined as beginning after the thirtieth (30th) day of suspension. The Company is not financially responsible for retesting. A second violation justifies immediate termination.

We reserve the right to terminate any person employed by our company for violation of any part of this policy. A violation, which endangers the safety of another employee, or the public, will be just cause for immediate termination, without suspension.

By signing this Drug-Free Safety Program, I am indicating that the policy is clear to me and I agree to abide by, encourage and promote these standards by example, and report any infractions. I further give the Jurgensen Companies my permission to investigate my background for any drug-related incident. I understand that this policy is in effect during any and all periods of employment that I have with this company. The Jurgensen Companies reserve the right to revise this policy at any time, either with or without notice.
