Ashville Foundation Initiative

Walkable & Bikeable Community

Ashville Foundation Initiative

Fig. 4-6 - Village Neighborhood Sidewalks (Source: Web)

Create Walkable and Bikeable Neighborhoods

The township and village should ensure that all neighborhoods and new development have formalized pedestrian-protected sidewalks and bikeways. Even rural areas should provide walking and biking opportunities for pleasure and exercise. Connecting these facilities will foster a more livable and desirable community for all and may provide opportunities to bike from the villages to employment opportunities along 23 and in the Rickenbacker area. These types of facilities may include sidewalks and bikeways, or shared use paths that are roadside or off-road trails. Connections throughout the township should be pursued.

Creates Neighborhoods

Ashville Foundation Initiative

Fig. 5-8 - Residential Sidewalk

Residential Sidewalks

Residential sidewalks are an extremely important element in defining connectivity and community character. Sidewalks give us an opportunity to walk, jog and bike through our community without exposing ourselves to potential conflicts with vehicles. Sidewalks give us an opportunity to smile and interact with our neighbors in a neutral outdoor setting, and make our communities appear more friendly. Sidewalks connect us with our destination, provide us an opportunity for a little evening exercise, and also create a sense of activity on a pedestrian scale that attracts others to join. The inclusion of sidewalks into every neighborhood and new development should be a priority for the North Gate Alliance Partners. Sidewalks in residential neighborhoods should be a minimum of 4 -5 feet in width while sidewalks in larger, more commercial developments should be at least 5-6 feet in width.

Preservation of Beauty

Ashville Foundation Initiative

Fig. 4-15 - Ohio and Erie Canal Plat Maps (Source: ODNR)

Passive Recreation / Nature Facilities

The Scioto River Corridor is a tremendous asset to the entire community and the North Gate CEDA partners should continually work to find ways to provide public access to the Scioto River for recreational enjoyment. An access point to the River along with parking for the Mackey Ford Wildlife Preserve already exists along 762 and any opportunity that arises to expand upon these areas should be fully explored to the benefit of the community.

Commercial uses associated with the golf course

The existing golf course has been a great asset to the community for quite some time. Over the past few years there have been some discussions from the owners about trying to tie commercial or residential uses in with the golf course. The villages and township should work with the golf course owners and support attempts to develop uses that have synergy with the golf course and the area.

*What is your
Dream?*

Ashville Foundation Initiative

- Look at the Strategic Land Use Comprehensive Plan
 - A closer look at planning
 - A closer look at working together
 - A closer look at community participation

Our Vision for the Future:

"Our Township and Village residents and leaders value their small town friendliness, community charm, and agricultural heritage and in the future, through smart growth policies and the coordination of local government resources and efforts, our entire community will promote balanced growth opportunities, coordinated transportation and pedestrian connectivity, and environmentally responsible industry that respects our environment, enhances our small village centers, and increases the success and quality of life of our families and employers."

Ashville Foundation Initiative

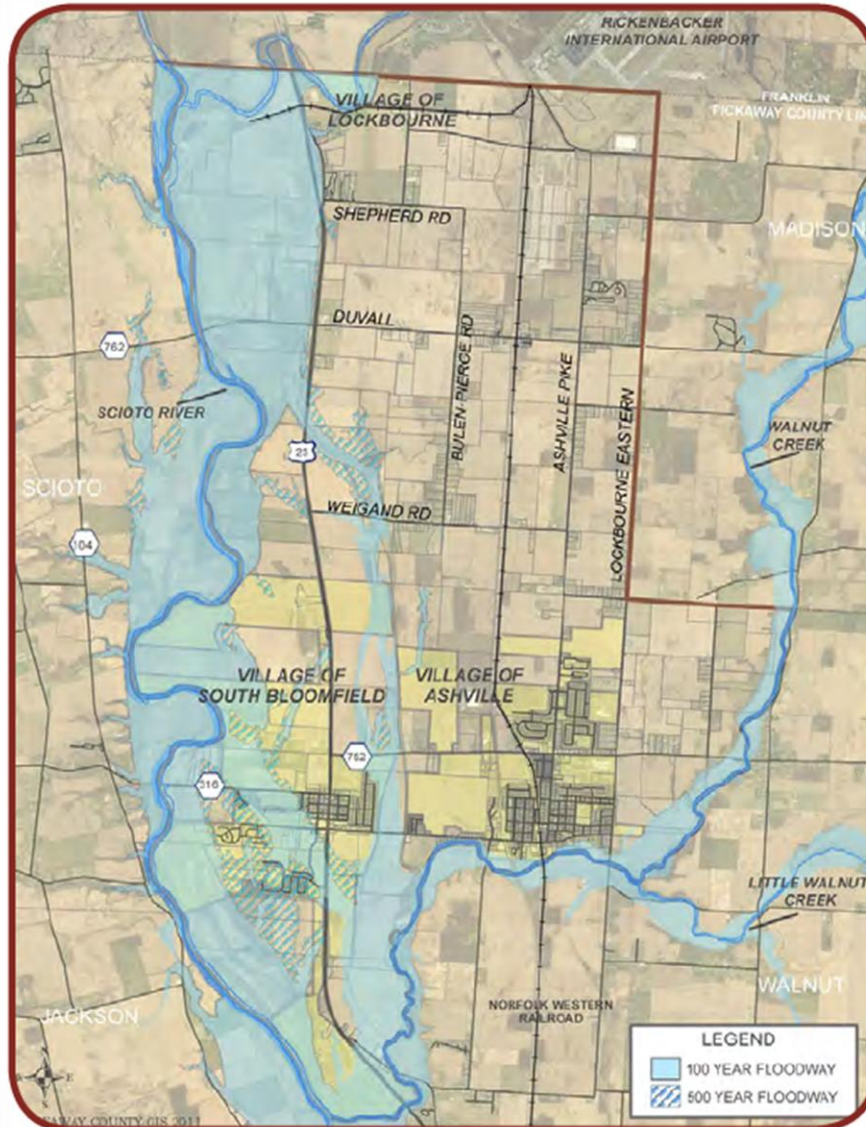

Fig. 3-29 - Floodplain (Source: Pickaway County GIS)

Streams, Floodways & Floodplains

The Scioto River corridor and the Walnut Creek comprise nearly 68% of the border of the township and provide a significant natural, cultural and recreational resource for the community.

- Floodplain areas are generally associated with waterways and can provide potential recreation opportunities and access to the water in the absence of development.

Turn a -

to a +

Ashville Foundation Initiative

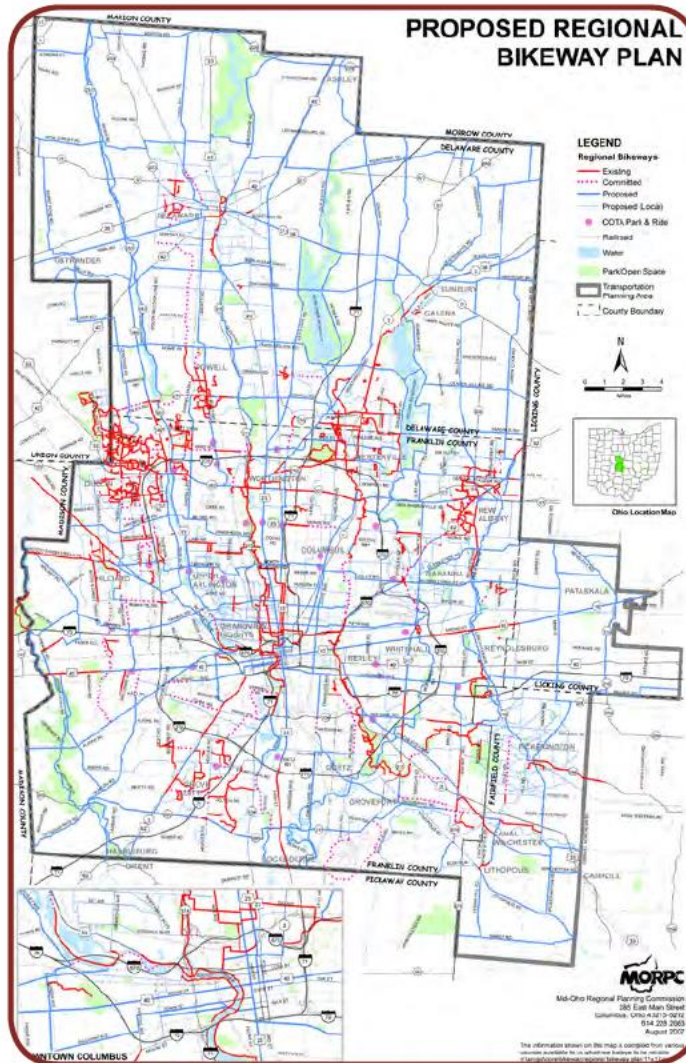

Fig. 5-6 - MORPC Regional Bikeway Plan

Bicycle / Pedestrian Goals:

Based upon the feedback received during the public meetings, the following bicycle / pedestrian goals have been identified for the North Gate Alliance partners:

1. To promote recreation, viable alternatives to driving short distances, and a more attractive and sustainable community, the North Gate Alliance Partners should actively search for opportunities to provide for pedestrian and bicycle connectivity.
2. All new development should incorporate sidewalks or bicycle / leisure paths as part of the public right of way and future recreation opportunities.
3. The Alliance partners should search for joint opportunities to connect to planned bicycle pedestrian facilities and to incorporate bicycle / leisure paths as a recreation opportunity in the Scioto River floodplain corridor.
4. A priority should be given to providing pedestrian / bicycle connectivity from all neighborhoods to schools, parks, commercial areas, and employment opportunities to reduce the need for short vehicle trips between those important community elements.

*Trails can connect
the region*

Ashville Foundation Initiative

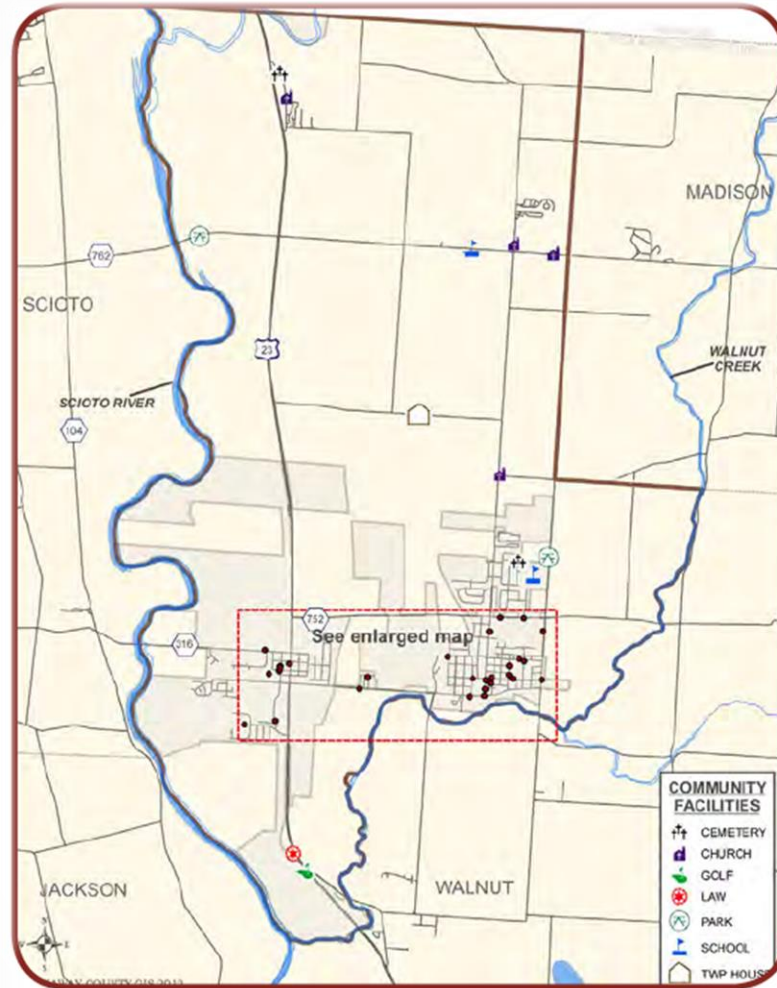

Fig. 3-24 - Community Facilities (Source: Pickaway County GIS Department)

Community Facilities

In addition to the Schools the types and quality of civic facilities and parks and recreation opportunities can play a large role in the social and economic conditions of the community. More often than not, when choosing a community, people look for contributors to their quality of life in addition to access to employment and good schools. Many people look at the accessibility of parks, recreation, libraries, and churches as being important contributors to their quality of life.

Ashville Foundation Initiative

Community Funds

Since 2001 the Pickaway County Community Foundation has been connecting community members, families, businesses, nonprofits and other partners to strengthen Pickaway County through philanthropy. The Pickaway County Community Foundation and its donors have created a wide range of community funds to help do this. These funds are our opportunity to bring individuals together to support the Foundation and other common causes in our county. These funds were created by the vision and commitment of the community and supporting them promises a brighter future for our county.

Support a Brighter Future

- Give365**
Participating in our Give365 Campaign will provide PCCF with the ability to continue to be a trusted community partner leading impactful change and providing additional resources that enhance change in Pickaway County. A simple pledge of \$1 a day (or more if you can) allows you to be part of the initiatives that will continue to move the Pickaway County Community Foundation forward to advance its mission.
[DONATE ONLINE >](#)
- Pickaway Addiction Action Coalition**
PAAC's mission is to develop, implement, evaluate and sustain Pickaway County-wide efforts to prevent drug abuse, addiction, overdose and death of our citizens.
[DONATE ONLINE >](#)
- Ruth Neff D.A.R.E. Support Fund**
Ruth Neff/D.A.R.E. Support Fund has been created to honor the work of Ruth Neff, who served as Pickaway County Commissioner. Mrs. Neff was instrumental in the establishment of D.A.R.E. (Drug Abuse Resistance Education) program in Pickaway County Schools in 1990. The D.A.R.E. program is presented by the Pickaway County Sheriff's Office.
[DONATE ONLINE >](#)
- Pickaway Agriculture and Event Center**
This fund was created to support the revitalization of the Pickaway County Fairgrounds. The mission of this fund is "Honoring Our Heritage Supporting Our Youth, Providing For The Future".
