RE: Village of Ashville Water Connection

Dear Franklin,

I am supportive of your proposed supplemental water connection to the Earnhart Hill System and look forward to working out the details of the arrangement. This project has been contemplated for years, and with imminent local growth, the time is now right for Ashville to move forward with this project. Based on our conversation, I understand this is a top priority for the Village. Best of luck with your funding requests.

Respectfully,

*Louis A. McFarland, PE*
