

Transportation Alternatives Program 2019 Application

The Transportation Alternatives Program (TAP) provides funds for projects that advance non-motorized transportation facilities, historic transportation preservation, and environmental mitigation and vegetation management activities. ODOT encourages adding alternatives to planned transportation projects rather than stand-alone projects. TAP funded activities must be accessible to the general public or targeted to a broad segment of the general public.

ODOT's TAP funds are for those projects sponsored by local governments outside the county boundaries of Metropolitan Planning Organizations (MPOs), unless the local is within a small MPO (population less than 200,000) that has opted to join the ODOT program. This application is only for applicants that were invited to apply for TAP funding after submitting a Letter of Interest (LOI) to ODOT. The application must be for the same project scope submitted in the LOI and for rating purposes, will be submitted under only one of the qualifying categories.

All applications must be submitted electronically. The applicant has 28 days from initial input to complete the application. If you are not ready to submit the application, please save the application by clicking the save button at the bottom of the form. Once the application is completed in full and submitted the applicant will receive notification of the submission.

Applications MUST be submitted on or before Friday May 17, 2019

Any questions about the application may be directed to Jeffrey Shaner: 1-614-644-6394[®] or Jeffrey.Shaner@dot.ohio.gov
