Mayor Charles K. Wise

I have been requested to determine if utilities are available for this location. Based upon the capacity information in the worksheet below I can state that the village of Ashville can provide water, sanitary, and stormwater for this location.

Below represents the current usage and capacity of our water and waste water plants:

Water Usage Analysis	2009	2010	2011 Projected	Available Capacity
Average gallons per day	326,129	323,247	257,759	225,712 Average
Approved gallons per day	480,000	480,000	480,000	254,288 Available
Sewer Usage Analysis	2009	2010	2011 Projected	Available Capacity
Average gallons per day	478,000	443,000	537,000	486,000 Average
Approved gallons per day	600,000	600,000	600,000	114,000 Available

Chief of Police
Douglas E. Clark

Therefore, based upon current usage and projected usage increase of 4,000 the facilities will have capacity to provide water and sewer. Stormwater mains are also in this area.
