UTILITY DEPARTMENT

Our objective is to fulfill Ashville's Vision, "offering an enhanced quality of life achieved through planning, progress and collaboration". Over the years, we have dedicated ourselves to producing drinking water that meets all state and federal standards. We continually strive to adopt methods for delivering the best-quality drinking water to you. As challenges to drinking water safety emerge, we remain attentive in meeting the goals of source water protection, water conservation, and community education while continuing to serve the needs of all our water users.
