The Mayor's Column—A New Best Friend

On August 17th the Wright-Poling Pickaway County Dog Shelter is teaming up with shelters across the country for the annual "Clear the Shelters" animal adoption drive.

Since 2015, "Clear the Shelters" has helped 153,651 pets find forever homes. The Pickaway County Dog Shelter will try to find homes for 85 dogs currently at the shelter.

This program was developed in honor of National Adopt A Shelter Pet Day, which aims to bring awareness to the nation's animal-homelessness crisis. I would like to suggest a trip to 21253 Ringgold Southern Rd, Circleville, OH 43113 or call (740) 474-3741.

Every year, millions of companion animals end up in shelters across the country. While shelter adoption rates have been steadily rising since 2011, according to the American Society for the Prevention of Cruelty to Animals, approximately 1.5 million animals — 860,000 cats and about 670,000 dogs — are still euthanized each year due to overcrowding. While we are fortunate to have a shelter that euthanizes for only health and aggression issues, it creates an obligation to get them out of the shelter to a home.

What Kind of Dog Best Fits Your Lifestyle?

The number of dogs in our shelter and shelters nationwide could be reduced dramatically if more people adopted pets instead of buying them. By adopting a shelter animal, you actually save two lives. Every single pet that is adopted frees shelter staff up to work with and prepare the next pet for potential adoption. Last year, more than 80,000 pets were adopted from over 900 shelters across the country.

"So, if you're thinking about taking home a new furry friend, consider heading to our shelter to adopt during Clear the Shelters on August 17th."

Sherri Rarey, Chief Dog Warden

Monday through Saturday hours are 10:00 am to 4:00 pm; go to Facebook from their website

Police Report	2
Student Works Summer Program	2

ASHVILLE VISION STATEMENT

Remembering our rural heritage, Ashville will be a vibrant and friendly community, offering an enhanced quality of life achieved through planning, progress and collaboration.

It will be a welcoming place where people want to live and businesses prosper.

Ashville's Summer Students

In 2019, the village had another year it benefited from our student work program.

Macey Moore, Zachary Reeves, Kate Riley, and Cole Younger are with our Summer Student Work's Program.

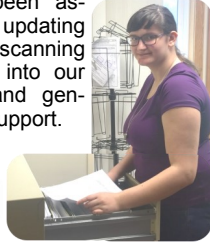

They helped with the July 4th Celebration, Fun in the Sun, mowing, painting and general park maintenance. In this article's photos you see how the Service and Utility Departments are able to get more work completed.

The picture below shows three of these students helping Shawn Demint with the Fun in the Sun Program.

You may notice the Fire Hydrants are now a little brighter red from their painting. As the photos indicate they helped paint the park

and village buildings. They assisted with painting the streets. They trimmed weeds at the from streets, and village buildings.

Ms. Riley pictured below is also one of the five summer students. She has been assisting in updating our files, scanning information into our database and general office support.

Kate Riley

We hope they gained experience they can use in their future.

What does Ashville do regarding mosquitos?

The Pickaway County General Health District and The Village of Ashville would like to both educate you and provide you items that will be affective in protecting you from mosquitoes.

The State of Ohio Department of Health recommends a three step approach • Avoid • Plan • Stop

- **Avoid** mosquitoes by applying a repellent, wear treated clothing, wear light-colored clothing, avoiding outside activities during peak mosquito times, and use mosquito netting.
- **Plan** ahead by checking CDC's Traveler's Health website, by checking with local healthcare providers, and when going somewhere pack to protect yourself with EPA-registered repellents, protective clothing and mosquito net.
- **Stop** mosquitoes by removing standing water. This is a partial list of where water can stand-flowerpots, buckets, barrels, tarps, wheel barrows, trash cans, tires, pet dishes, gutters, ponds, and pools.

Ashville has been provided by the Health Department in the **Avoid** mosquitos area Repellent and in the **Stop** mosquitoes area Mosquito Dunks.

Pickaway County General Health District
P.O. Box 613
110 Island Road
Circleville, OH 43113
Office: 740/477-9667 • Fax: 740/474-5523

A limited supply is available at our 200 East Station Street Office Dunks are safe for humans and animals. Dunks can be used in tires, flower pots, bird baths, watering troughs, and coy ponds. A dunk can be used in 100 sq. ft. area depth not important. It will last 30 days.

If it is a larger area contact the Heath Department at 740-477-9667. A larvicide is not necessary for moving or flowing water, i.e. creeks, rivers or retention ponds with aerators.

A larvicide will not kill a mosquito.

The Health Department and CDC do no recommend spraying for mosquitoes in a rural area such as Ashville. A denser population in an urban community is where this may work. Therefore, our focus is more affective by concentrating on standing water.
