State Route 316 Long & W. Main Street Project Update

This is a stormwater, sidewalk, curbs, paving and landscaping project. All but paving has been completed on West Main Street. We anticipate ODOT to move to complete paving before fall. Newcomer Concrete started work on Long Street sidewalks. They were working on the westside from south to north. Once the westside is completed they will move to the eastside. Once the project has been completed the infrastructure should be able to better handle rain events. You can go to www.ashvilleohio.gov and click on the banner to the right for the schedule, more information and updates. The complete address is <http://www.ashvilleohio.gov/index.php/16-village-of-ashville/264-state-route-316-resurface-long-sidewalk-ada-stormwater-improvement-project>

This is a joint project between ODOT, OPWC, CDBG, and Ashville.
