The Mayor's Column - New billing software

We need accurate demographic information so that you can obtain data about your water usage. Next month we will begin using this new billing system. Therefore, the bill at the end of next month will look a little different but will contain the same data (costs). The difference with this system, you will be able to access the same information that is available in our office. You can look at your yearly, monthly, daily, and evenly hourly usage information. The office has been able to do that since June 25th of 2021. Now enjoy all the events that are listed in this Newsletter. Your source of accurate information.
